Appendix A – Corporate Key Performance Indicators

1. PURPOSE OF THE CORPORATE BUSINESS PLAN

The Commission has been established to resolve, investigate and prosecute complaints about health care to protect the health and safety of the public.

Our main objective as defined in the Commission's Strategic Plan is to:

act in the public interest by resolving, investigating and prosecuting complaints about health care to protect the health and safety of the public.

The Commission's strategic planning framework endeavours to align the Commission's Corporate Strategic Objectives and targets with both the Corporate Plan and the individual Divisional Business Plans.

The Corporate Plan is derived from the Commission's Strategic Plan 2011-2014 and reflects the progressive implementation of the Commission's corporate strategies and directions in delivering our business targets and achieving agreed business outcomes.

The Commission's Strategic Plan comprises the following five key result areas that cover the outcomes and performance of all work undertaken by the Commission.

- Comprehensive & responsive complaint handling and analysis,
- Investigate serious complaints,
- Prosecute serious complaints,
- Accountability, and
- Organisation development and performance.

Within each divisional business plan, key result areas are linked to corporate objectives, performance measures and performance targets.

The Commission's values represent the foundation for how we will work as an organisation and with other agencies to achieve our performance targets. These values also describe the type of organisation we aspire to be:

- **Promote public health and safety:** We will seek to resolve complaints and thoroughly investigate serious complaints of poor health care
- **Be fair, impartial and accountable:** We will always deal with matters before the Commission with objectivity and impartiality and report willingly on our performance and outcomes
- **Strive for excellence:** We will constantly strive to improve, grow and work more productively;
- **Act professionally in pursuing our aims:** We will pursue our objectives to their conclusion and not be diverted;
- **Respect each other and work collaboratively:** We will treat each other with respect and all those with whom we have contact;
- **Act ethically and with integrity:** We will always act with honesty, integrity and impartiality;
- **Provide clear, consistent and timely information:** We will communicate with complainants and health care providers in a clear and open manner;

- **Awareness of the cultural and linguistic diversity of our clients:** We will constantly be aware of and respect the cultural and linguistic diversity of each other and all those with whom we have contact;
- **Promote and Comply with our Code of Practice:** We will continually promote and comply with our Code of Practice.

At quarterly intervals the Commission reviews its business performance and assesses its trends and the results of its key performance measures.

The business management framework is intended to be flexible and allow the organisation to respond to changing circumstances.

2. KEY CHALLENGES

The Commission's operating environment, internal and external, raises a number of challenges for the future performance and outcomes of the organisation. These challenges include:

- (a) Adequate funding
- (b) accountability for Commission activities through regular performance measurement and reporting on results that meet the expectations of our key stakeholders (Parliamentary Joint Committee and the Minister for Health);
- (c) responsive complaint handling, resolution and conciliation processes;
- (d) continual development of employees' skills and knowledge commensurate with best practice complaint resolution, investigations and prosecutions;
- (e) risk assessment and project management are fundamental and integral to all operations including a culture of awareness and compliance with applicable standards;
- (f) managing judicial decisions and changes to relevant legislation impacting the Commission's legal cases;
- (g) assimilating advances in technology and new investigation techniques into operational and legal plans, procedures and systems; and
- (h) managing the volume of complaints and ensuring assessments and investigations are completed in a timely manner;
- (i) maintaining timely and adequate consultation processes following the move to National Registration Authorities

To address these challenges, considerable attention has and will continue to be given to: The submission of a persuasive case to minister and Department of Health for funding...

- the delivery of a targeted Learning and Development Program;
- the development of leadership throughout the organisation;
- risk assessment and project management integral to the management culture of the organisation; and
- ongoing improvement in the way we work internally.

3. PLANNING ASSUMPTIONS

The following key planning assumptions have shaped the Commission's planning process. It is assumed that:

- the Commission's charter will continue in its current form;
- the Commission's key stakeholders will require detailed performance and outcome information and reporting;
- the Commission will continue to invest resources in improving its skills and knowledge to meet the challenges posed by adopting best practice complaint handling to achieve successful dispute resolution and disciplinary outcomes;
- changes in information technology and case management systems will provide increasing opportunities for the Commission to deliver improved productivity and results;
- the community will continue to value the highest standards of accountability and behaviour by health care providers;

4. RISKS

Achievement of this Plan will also depend on the management of the key sources of risk to which the Commission's operations are subject. As part of the corporate planning process, strategic and operational areas of risk were reviewed (See Appendix B)

The Commission has identified the following key sources of risk to the day-to-day operations undertaken by the organisation:

- inadequate funding to undertake our statutory requirements and day to day operations
- inability to manage organisation reform and deliver timely assessments, investigations and prosecution results (e.g. unacceptable delays in handling matters and achieving statutory timelines)
- interruption to service capacity (e.g. failure of IT systems);
- inadequate records management practices
- human resources (e.g. high staff turnover, retention and attraction of skilled staff, motivated staff, etc.); and

Specific controls and treatments to address business risks have been identified in Divisional Business Plans.

5. **STAKEHOLDER EXPECTATIONS**

The corporate plan has been developed recognizing the needs and expectations of our clients and stakeholders.

6. **PLAN FOR DELIVERY**

The Corporate Business Plan has been developed to meet what the Commission has assessed as the priorities for the effective delivery of its mission. The challenge for the Commission is to ensure that the strategies and their resourcing are adequate to achieve the Commission's objectives and to deliver the targeted outcomes and results.

The Commission's Business Structure is designed around the delivery of the services and activities that support the corporate objectives and key result areas. This planning approach flows down through divisional business plans to individual staff performance agreements ensuring appropriate levels of accountability and ownership of the Commission's objectives and targets.

For 2011-12 key performance indicators have been developed by divisions for their major activities. The performance of the Commission against these key performance indicators is reviewed regularly and on a quarterly basis by the Executive Group on the achievement of business targets and initiatives and KPI results. A quarterly performance report is provided to the Minister for Health and the Parliamentary Committee on the Health Care Complaints Commission.

The following pages set out the plan to deliver the objectives of the Commission's Strategic Plan. For each of these objectives, a range of strategies and performance targets/measures have been developed and are listed.

7. STRATEGIC OUTCOMES

The Strategic and Corporate Plans are working towards achieving the following outcomes:

Comprehensive & Responsive Complaint Handling:

- Complaint resolution capacity delivering effective and fair resolution of less serious complaints between the parties.
- Best practice in complaint assessment, resolution and conciliation processes.
- Complaints handling with a view to influence the improvements in standards of health care.

Investigate Serious Complaints:

- Best practice investigations and case management processes.
- An organisation with a credible reputation for investigating complaints.
- Improved health services systems through the implementation of recommendations arising from investigations

Prosecute Serious Complaints:

- Timely and efficient prosecution of unsatisfactory professional conduct.

Accountability:

- Responsive and open communication with the Minister and the Parliamentary Committee on the Health Care Complaints Commission.
- Performance reporting that is comprehensive, meaningful, regular and an intrinsic aspect of the day-to-day functioning of the organisation.
- A strong record of compliance with all regulatory requirements for all operations and functions undertaken by the Commission.

Our organisation:

- A governance structure that supports the planning and achievement of quality operational outcomes.
- An easily understood and accepted system of performance management and learning and development for all staff.
- A safe and productive work environment with no serious accidents or injuries and supported by a culture of fairness, equity and diversity.
- Maintain high levels of ongoing communication across, and at all levels throughout, the organisation.

8. RESOURCING THE PLAN - 2011-12 BUDGET

The funding of the operations of the Commission is provided through the Department of Health via a grant payment. The internal allocation of these funds to business activities was determined following a thorough strategic corporate planning assessment and the detailed business plans prepared by Divisions of the key initiatives and activities proposed for 2011-12.

The Commission's annual recurrent expenditure budget for 2011-12 is approximately \$10.9 million of which \$10.18 million is directly funded by DOH and the balance being met from other income and non-cash items such as depreciation and those items directly contributed by the NSW Government such as long service leave, superannuation, etc.

Corporate Level Recurrent Budget

The Commission's 2011-12 budget is now derived from DOH and is compared to the Commission's 2010-11 budget as follows:

	Budget 2010-11	Budget 2011-12
	\$	\$
Employee costs	7,550,000	7,659,000
Other Operating Expenses	3,085,000	3,106,000
Depreciation	229,000	210,000
Total Expenses	10,864,000	10,975,000
Total Revenue	377,000	10,533,000
Non-cash items & reimbursements		
NCOS	10,487,000	442,000

Business Activity Budget

The 2011-12 Budget requirements presented by service area/activity is as follows:

Service Area/Activity	Total \$'000	Staff Numbers FTE
Executive Services	653	4
Investigations	2,143	18.4
Legal Services	2,402	11.4
Assessment & Resolution Services	2,939	27
Corporate Services	1,129	9
Commission-wide costs #	1,710	
	10,976	69.8

Commission-wide costs include workers compensation, long service leave, rental, audit fees, leases, insurance, training, office supplies, communications, etc.

Resource requirements for each area have been identified by taking into account the demands placed on the Commission to deliver this Plan and the intended results.

For 2011-12 approximately 70% of recurrent expenditure is devoted to salaries and associated on-costs. Of the remaining amount, much is committed expenditure such as property and equipment rental, maintenance, insurance, audit, electricity, telephones, fees for medical and legal expert services, etc, leaving.

The ongoing issues for resource funding are:

- maintaining the Commission's ongoing financial viability within the annual budget allocation process from DOH which includes efficiency targets of 1.5% for 2011-12;
- the need to develop information systems, networks and technology to improve access to stored information; and
- funds available to meet the cost of ongoing upgrading of staff skills (technical training, risk assessment, project management, management training, etc).

Capital Projects

The approved 2011-12 Capital Budget is \$25,000. This funding will be applied for miscellaneous ICT equipment purchases.

9. CONCLUSION

The Commission's 2011-12 Corporate Plan:

- provides the blueprint for the Commission's operations for 2011-12 based on a range of strategies which will continue to build the organisation's immediate and long term capability to deliver its statutory charter;
- will deliver improved quality of outcomes in terms of timeliness, cost and quality; and
- will result in an organisation focused on improving all levels of performance.
